TEXT BOOK: Davidson: Introductory Hebrew Grammar.

JUNIOR: (2 lessons—Weiss.) Declension of Nouns and Pronouns; The Simple Verb; Suffixes; Exercises.

TEXT BOOK: Davidson: Introductory Hebrew Grammar.

FRENCH.

No Classes.

HISTORY.

SENIOR: (2 lessons—Luecke.) Ancient History: The Eastern Nations and Greece.

TEXT BOOKS: Myers: General History; Kiepert: Atlas Antiquus.

JUNIOR: Combined with Senior.

SOPHOMORE: (2 lessons—Luecke.) Ancient History: The Eastern Nations and Greece.

Text Books: Myers: General History; Kiepert; Atlas Antiquus.

FRESHMAN: Combined with Sophomore.

HIGH SCHOOL B: (3 lessons—Luecke.) United States History, from the Discovery of America to the Present Time.

Text Book: Hansell: High School History of the United States.

HIGH SCHOOL A: Combined with Class B.

MATHEMATICS.

SENIOR: (3 lessons—Weiss.) Algebra: Progressions; Permutations and Combinations; Chance; Binomial Theorem; Geometry; The Sphere; Measurement of the Cylinder, Cone, and Sphere; Plane Trigonometry.

Text Books: Wentworth: Complete Algebra; Phillips and Fisher: Elements of Geometry; Wentworth; Trigonometry.

JUNIOR: (3 lessons—Weiss.) Algebra: Review of Exponents and Indeterminate Equations; Quadratics; Radical Equations; Geometry: Areas of Polygons; Regular Polygons and Circles; Symmetry; Diedral and Polyedral Angles; Polyedrons.

TEXT BOOKS: Wentworth: Complete Algebra; Phillips and Fisher: Elements of Geometry.

SOHOMORE: (3 lessons—Weiss.) Algebra: Quadratics; Theory of Exponents; Radicals; Ratio and Proportion; Geometry: Triangles, Quadrilaterals, and Polygons; The Circle; Similar Figures; Areas of Poiygons.

TEXT BOOKS: Wentworth: Complete Algebra; Phillips and Fisher: Elements of Geometry.

FRESHMAN: (3 lessons—Weiss.) Algebra: Four Rules and Factoring; Fractions; Simple and Simultaneous Equations, Involution and Evolutions; Theory of Exponents.

TEXT BOOK: Wentworth: Complete Algebra.

HIGH SCHOOL B: (3 double periods—Luecke.) Arithmetic: Percentage; Interest and Discount; Proportion; Powers and Roots; Mensuration; Metric System; Specific Gravity; Progressions; Review of Entire Course in Arithmetic.

TEXT BOOKS: Wentworth: Grammar School Arithmetic.

HIGH SCHOOL A: (3 double periods, at the same time with Class B—Luecke.) Arithmetic: Decimals; Multiples and Measures; Common Fractions; Compound Quantities; Percentage.

TEXT BOOK: Wentworth: Grammar School Arithmetic.

SCIENCE.

SENIOR: (2 lessons—Romoser.) Geology; Logic; Psychology in Lectures. (1 lesson in connection with History—Luecke) Elementary Course in Political Economy.

TEXT BOOKS: Le Conte: Compend of Geology; Jevons–Hill: Elements of Logic; Thompson: Political Economy for High Schools.

JUNIOR: Combined with Senior in Geology, Logic, Psychology.

SOPHOMORE: (2 lessons—Romoser.) Inorganic and Organic Chemistry with Experimental Illustrations.

TEXT BOOK: Williams: Introduction to Chemical Science

FRESHMAN: Combined with Sophomore.

HIGH SCHOOL B: (2 lessons—Romoser.) Elementary Chemistry; Physiology and Hygiene.

(2 lessons—Luecke.) Geography: Introductory Chapters and all Continents with special attention to all save North America.

(1 lesson—Luecke.) Civil Government: Government of the United States and of North Carolina.

TEXT BOOKS: Roscoe: Chemistry Primer; Blaisdell; Our Bodies; Maury: Manual of Geopraphy; Finger: Civil Government.

HIGH SCHOOL A: Combined with Class B in Chemistry and Geography.

PREPARATORY DEPARTMENT.

8—12 A. M.
1:30—4 P. M.

Bible History, Catechism, Reading, Spelling, Language Work, Geography, History, Drawing, Singing.

GENERAL INFORMATION.

LOCATION.

Conover is a village in the Piedmont region of North Carolina and lies on two railways, the Memphis Division of the Southern and the Carolina Northwestern. Mail and transportation facilities are, therefore, adequate and telegraphic messages addressed "Conover, via Newton" are delivered promptly. Lying about 1100 feet above the sea level, this section of North Carolina is not infected with the fevers and the enervating influences of the lowlands near the coast. By charter it is made unlawful for any person to sell intoxicating liquors within two miles of the College.

BUILDINGS, GROUNDS AND EQUIPMENT.

The College building occupies an elevated site within the town limits. It is a two-story frame building containing a large chapel-hall and rooms for the Library and the Preparatory classes on the ground floor, and above, there are four lecture rooms with a small laboratory. The Dormitory, situated on the campus, is a brick structure containing sixteen rooms and thus offers accommodations for a number of students The Campus includes seven acres amply supplied with shade trees.

The class-rooms are furnished with patent desks, maps for ancient and modern geopraphy, etc. The Chemical and Physical Laboratories have been stocked at considerable expense, and an annual appropriation enables the authorities to add yearly to the equipment.

Recent donations have augmented the Library considerably and it now offers to the student some means for general and supplementary reading, and for reference.

CONTROL AND GOVERNMENT.

The College is controlled by a Board of Trustees and dicipline is exercised by the President of the school and the Faculty. The Board of Trustees is composed of members of the English Evangelical Lutheran Synod of Missouri and other States and of men in sympathy with the work of this Synod.

The religious teaching in the school is strictly in agreement with the Confessions of the Luthern Church, and the discipline exercised is, therefore, thoroughly Christian. The course in religion is not, however, obligatory, and those who, for good and sufficient reasons, wish to be dispensed from all or part of this course, will be made welcome and accorded every privilege enjoyed by others.

DEPARTMENTS AND COURSES STUDY.

College and High School.

While due regard is had for the abilities and opportunities of the individual student, thorough work is insisted upon in all departments. The Account of Work Done and the Outline of Courses are true statements of what has been done and of what is required.

The Faculty of the College, by and with the consent of the Board of Trustees, "have the power of conferring the degree of Master of Arts, and the degrees and distinctions of less dignity than Master of Arts, which are usually conferred by colleges." but no degree will be conferred except after honest and successful effort on the part of the candidate.

The College offers the following courses:

I. *The Ancient Classical Course:* Requires graduation in English, Latin, Greek, German, French, History and Political Economy, Mathematics, Mental and Moral Sciences, Natural Sciences. Hebrew is optional. Ladies may substitute an approved equivalent for Greek.

II. *The Modern Classical Course:* Require, graduation in English, Latin, German, French, History, Mathematics, Mental and Moral Sciences, Natural Sciences. Elementary Greek, and

Political Economy are optional. Ladies may substitute for Advanced Mathematics.

III. *The Scientific Course:* Graduation in English, Latin, German, French, History and Political Economy, Mathematics, Mental and Moral Sciences, Natural Sciences. Students may make approved substitution for Advanced Latin.

The time required to complete one of these courses, beginning with Class A, is six years.

IV. *The Normal Course:* Requires completion of course as prescribed for Sophomore Class in Ancient Classical Course in English, German, History and Political Economy, Mathematics, Natural Sciences; also graduation in Elementary Latin, Mental and Moral Sciences. Optional are Elementary Greek, Elementary French, and Advanced Natural Sciences.

The time required to complete this course, from Class A, is four years.

V. *The Elective Course:* In all classes a student may outline his own course, subject to approval. However, English is obligatory throughout, and also Mathematics to end of Sophomore year. In addition to these obligatory branches, the student must elect enough studies in his course to give him an aggregate, a week, of at least fifteen lessons.

Preparatory.

The classes in this department offer facilities for the training of children from the earliest year, and the aim is to place these classes in charge of a competent teacher. During the past year the work in this department has been in charge of a special teacher.

Other Departments.

There was no Department of Music in connection with the school during the past year, because facilities for the study of music were offered elsewhere in town.

A Business Department has not been instituted, thus far, on account of lack of demand.

SOCIETIES.

Secret fraternities are not tolerated. Membership in the two literary societies is, as a rule obligatory and the students are encouraged to look upon the work done for the meetings of their respective society as part of the regular curriculum.

EXPENSES.

The outlay of money for a year of ten months, forty weeks in all, is small.

The rooms in the dormitory being unfurnished, the student should bring the necessary furniture and clothing, or come prepared to purchase same. Books can be bought from the agent at the College for cash at publisher's rates.

Students that secure other students, receive a reduction of one-third on their own tuition for every one whom they induce to matriculate, but only after all tuitions of all parties are paid.

No one is allowed to enter school who has one year's tuition or more unpaid, except by consent of the Board.

In order to encourage the attendance of more than one student from a family, the Board has decided to offer special inducements to such students. These reductions, to be made only in case all dues are settled by the end of the school-year, will be made known on application.

MATRICULATION AND PROMOTION.

Applicants for matriculation will be entered by examination into any class for which they show themselves prepared. Those who are not known to some member of the Faculty must present acceptable testimonials as to character and, when possible, also certificates from schools attended in the past. Those who live at a distance should write to the President of the school for particular information before appearing in person.

The basis of promotion is the result of the examinations at the end of the year, combined with the term averages. Deportment is graded, like examinations, on a scale ranging from 0 to

100. Written reports are issued at the end of every term to show the record made by the student in that term.

ANNOUNCEMENT.

The school-year 1901–1902 will begin September 11th. Applicants for admission should present themselves for examination by September 10th.

A REQUEST.

The authorities of the school kindly request their friends to aid in the spreading of the catalogue. Requests for catalogues will be cheerfully honored and names and addresses of prospective students are always received with thanks.
